Parking Requested: Yes No

APPLICATION FOR APARTMENT

Dale Terrace Apartments LP, the owner of Dale Terrace Apartments, 720 West County Road B, Roseville, Minnesota, requests information to determine whether you qualify for an apartment. The information provided by you in this application will be an important part of the decision whether to rent to you. By completing this application, you represent and agree that: (1) the information provided by you in this application is true and correct; (2) the information provided by you is complete and includes all places you have lived or worked during the last two years; and (3) we may rely on this application in deciding whether or not to rent an apartment to you. If any of the information provided by you is determined to be false or misleading, we will have the right to reject your application or evict you if a lease has been signed.

Dale Terrace Apartments charges a non-refundable application fee of \$40.00. You also need to pay the \$300.00 security deposit for the apartment at the time your application is submitted. Please pay the application fee and security deposit by separate checks, each made payable to Dale Terrace Apartments LP.

Your application is subject to our review and approval. We may check your credit, criminal background, income, rental history, and other information prior to approving or rejecting your application. We do not use a tenant screening service, but we do use third-party companies for the purpose of running credit and criminal background checks.

If we reject your application, the security deposit will be refunded within 7 days, but the application fee will not be. If your application is approved and you decide not to sign a lease, neither the security deposit nor the application fee will be refunded.

All leases are for a term of one year. Other than exceptions required by law, no pets are permitted. You may separately rent basement parking, subject to availability. We are a fair housing provider and grant equal opportunity to all persons.

Name: _____ E-Mail Address: _____
Last First Middle

S.S. No. _____ Date of Birth: _____ Cell No. _____

Other Persons to Occupy Apartment: Name: _____ Date of Birth: _____

Federal law requires the following disclosures:

Housing built before 1978 may contain lead-based paint. Lead from paint, paint chips, and dust can pose health hazards if not managed properly. Lead exposure is especially harmful to young children and pregnant women. Before renting pre-1978 housing, lessors must disclose the presence of known lead-based paint and/or lead-based paint hazards in the dwelling. Lessees must also receive a federally approved pamphlet on lead poisoning prevention.

Dale Terrace Apartments has knowledge of lead-based paint on the following painted surfaces in the apartments and common areas of the property: (a) living room wall; (b) hallway wall; (c) hallway radiator; and (d) stairway railing. The only reports or records Dale Terrace Apartments has pertaining to lead-based paint and/or lead-based paint hazards in the apartments or property are a lead-based paint testing report prepared by Applied Environmental Sciences, Inc., copies of which have been provided to applicant. Since the apartments and property were built prior to 1978, other lead-based paint and/or lead-based paint hazards may exist in the apartments or property.

Applicant acknowledges that applicant has received copies of: (a) the pamphlet Protect Your Family from Lead in Your Home; and (b) lead-based paint testing report prepared by Applied Environmental Sciences, Inc.

By signing this application, you agree that: (1) Dale Terrace Apartments LP and Otness Management Company, its managing agent, are authorized to contact credit bureaus, government agencies, law enforcement authorities, employers, landlords, lenders, banks, and other parties to obtain additional information and to verify the accuracy of the information provided by you; and (2) all agencies, authorities, employers, landlords, lenders, banks, and other parties are authorized to release all information requested by Dale Terrace Apartments LP or Otness Management Company.

**DALE TERRACE APARTMENTS
APPLICATION PROCESS**

Thank you for your interest in living at Dale Terrace Apartments. For the benefit of everyone, we carefully screen all applications. Below is a summary of our application process. Please read this summary if you have any questions about whether you qualify for an apartment.

1. **Completed Application; Fees:** We do not begin our review of an application until we have received: (a) an application which has been completely filled out and signed; (b) a government-issued ID for our review; (c) a check or money order for the application fee; and (d) a check or money order for the security deposit. Everyone 18 years or older who intends to live in an apartment must fill out and sign a separate application.

2. **Qualification Standards:** Applicants need to earn a certain number of “points” to qualify for an apartment. An application is rejected if the applicant falls below what we consider to be the minimal acceptable standard. The information we consider in reviewing an application is as follows:

Credit: Ideally, an applicant has 2 years of credit history (e.g. credit cards, loans, checking account) where all accounts have been paid on time. **An application is automatically rejected if there are unpaid judgments or unpaid collections over a minimal amount.** However, we ignore judgments, unpaid collections, and bankruptcies that relate to medical expenses, business failure, foreclosure, excessive student loan debt, or fraud. A bankruptcy is acceptable if good credit was re-established after the bankruptcy and more than 6 months have passed since the bankruptcy filing. **The lack of credit history is not a problem if income and/or rental history are strong.**

Income: Applicants should have monthly income of 3 times monthly rent. We can work with monthly income of as little as 2 times monthly rent if credit history and income history are strong. In making these calculations, we combine the income of all applicants for the apartment. **We include all forms of verifiable, legal income, including wages, salaries, child support, public assistance, disability payments, alimony, social security benefits, and pensions.**

Rental: Applicants should have 2 years of rental history without problems reported by prior landlords. Ownership of a house or condominium is usually a substitute for rental history. A foreclosure is usually not a problem if there is also positive rental history. **The lack of rental history is not a problem if income and/or credit history are strong.**

Criminal Convictions: **Criminal convictions are evaluated in accordance with evolving legal standards.** Our assessment is based on the nature, severity, and time of the criminal conviction.

Many applicants are approved with less than 2 years of credit, income, or rental history. Some weakness in one category is acceptable if the application is strong in other areas (e.g. no rental history is acceptable if credit and/or income histories are strong). We consider the lack of rental or credit history to be preferable to poor rental or credit history.

3. **Roommates; Guarantors or Co-Signers:** While each application is reviewed separately, a strong application will strengthen a weaker application from a roommate. If an application for an apartment is rejected, the applications of all roommates are also rejected. We accept guarantors/co-signers if the guarantor/co-signer lives in the Minneapolis-St. Paul metropolitan area and has strong income and credit. Guarantors/co-signers are accepted only in situations where the income of the applicants is insufficient.

4. **Lease Terms.** **All leases are for a term of one year. Other than exceptions required by law, no pets are permitted.** If you have questions about lease terms, you may look at a copy of our lease form.

5. **Ask Questions:** If you have any concerns about whether you qualify for an apartment, please discuss the issue with us. We may be able to work with you to clear up certain problems. It is to your benefit to be completely honest and open.

6. **Time:** It usually takes two or three business days to process an application if all necessary information has been provided.

LEAD-BASED PAINT TESTING

At

720 COUNTY ROAD B
ROSEVILLE, MINNESOTA 55113

Applied Environmental Sciences, Inc. (AES) was retained by LJM Group to perform lead paint analysis of an apartment building located at 720 County Road B in Roseville, Minnesota. AES was asked to analyze three painted surfaces in five apartment units and ten painted surfaces in the common areas. The caretaker at the apartment building picked the apartment units included in the paint testing. All tests were taken with a Niton XL Spectrum Analyzer XRF instrument.

This lead-paint sampling is not a full lead inspection.

The sampling was conducted on August 11, 2006.

The results of the lead-paint testing are as follows:

- 1. AES tested a total of twenty-five (25) painted surfaces for lead. Four (4) surfaces tested above the Occupational Safety and Health Administration (OSHA) guideline of 0.0 milligrams of lead per square centimeter of surface (mg/cm²). None of these surfaces tested above the Minnesota Department of Health (MDH) and Housing and Urban Development (HUD) guideline of 1.0 mg/cm². No lead was detected in the remaining twenty-one (21) surfaces tested (0.0 mg/cm²). See attached table for complete listing of all XRF results.
2. Surfaces found to contain lead-based paint should not be cut, scraped, sanded, or otherwise disturbed without implementing adequate precautions.

I - METHODS

AES used a Niton XL portable XRF spectrum analyzer (serial number U 286) for all lead-based paint testing. The Niton XL measures lead L-shell and K-shell electron emissions when exposed to a Cadmium 109 source. An algorithm program is used by the Niton XL to analyze the L-shell and K-shell electron emissions to determine the concentration of lead in the paint. Tests were typically conducted until the XRF gave a low error reading of ± 0.1 mg/cm². L-shell readings are independent of the substrate and provide the first results of lead concentration. K-shell readings are carried out simultaneously and are used to verify the L-shell results. The Niton XL's sensitivity level is sufficient enough to consider a reading of 0.0 mg/cm² as containing no lead.

AES was asked to analyze three painted surfaces in five apartment units. The apartment units included in the lead paint testing were not picked by AES. Each paint sampled in the building was given a number in chronological order.

II - LEAD STANDARDS

THE MINNESOTA DEPARTMENT OF HEALTH (MDH) has established lead paint guidelines for residential properties. These guidelines are designed to protect children and

Phone 763-545-5510 □ Fax 763-545-7883 □ www.aesmn.com

pregnant women who are vulnerable to the effects of lead exposure. MDH "regulates" paint with 1.0 milligrams of lead per square centimeter or more of paint surface as measured by an XRF analyzer.

THE OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION (OSHA) standards apply to any employee disturbing (creating dust or fumes) materials covered with lead-based paint. OSHA regulates lead as an airborne contaminant. Airborne concentrations during disturbance will vary with both the concentration of lead paint and with the operation (manual demolition, sanding, etc.). OSHA requires the contractor to show proof that the operations disturbing lead-based paint in any concentration will not exceed the action level of 30 µg/m³ or the Permissible Exposure Limit (PEL) of 50 µg/m³.

THE DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT (HUD) has established guidelines concerning lead-based paint which apply only to Federal housing. The established HUD guideline for lead-based paint is 1.0 milligrams of lead per square centimeter or more of paint surface as measured by an XRF analyzer.

III - DISCUSSION

The lead paint testing was limited to the five apartment units and the common areas that AES was directed to screen. AES was asked to analyze three painted surfaces per apartment unit and ten painted surfaces in the common areas. AES tested a total of twenty-five (25) painted surfaces for lead. Four (4) surfaces tested above the Occupational Safety and Health Administration (OSHA) guideline of 0.0 milligrams of lead per square centimeter of surface (mg/cm²). None of these surfaces tested above the Minnesota Department of Health (MDH) and Housing and Urban Development (HUD) guideline of 1.0 mg/cm². No lead was detected in the remaining twenty-one (21) surfaces tested (0.0 mg/cm²).

If these results are used by a contractor to comply with the OSHA Interim Lead in Construction Standard (29 CFR 1926.62), lead-based paint results below the MDH guideline of 1.0 mg/cm² are not automatically exempted from the Standard. The contractor must evaluate the potential for lead dust or fume generation from all activities which will disturb paint containing any quantity of lead.

It is not AES' responsibility to determine whether or not any place of employment, working condition, or practice complies with all Federal, State, or Local laws, regulations or standards pertaining to safety and health.
